YOUR CRUISE

Aboard *Le Boréal*, discover the Pacific coast of South America and colonial style of the cities of Chile. Chile, the slender strip of land immortalised by Pablo Neruda, runs between the Andes and the Ocean, offering you its richly contrasting landscapes and its pristine lands.

Your cruise begins with 5 days and 4 nights of luxury expedition in the Chilean fjords, those torturous fjords where majestic glaciers seem to meet the ocean.

From Puerto Natales, do not miss the Torres del Paine National Park, at the southern tip of Chile. Listed as a UNESCO World Heritage site, this park is one of the most beautiful places on Earth, where the unspoiled nature is rivalled only by the intense colours of the sky.

Tortel is a little Patagonian village at the end of the world, clinging to a hillside and blessed with unrivalled architecture: houses on stilts, walkways that are an invitation for a stroll, endless flights of stairs - this village offers a panorama where the "streets" follow the contours of the coastline.

Fall in love with Puerto Montt, the capital of the "Lake District", whose beauty is renowned worldwide. The city and its harbour appear on the horizon, revealing their treasures within a unique and rare setting.

FOCUS ON... NAVIGATION CAPE HORN AND THE BEAGLE CHANNEL

It's at the meeting point between the Atlantic and Pacific Oceans that you enter Chilean Patagonia where you head for the Tierra del Fuego archipelago and its famous Cape Horn. From the top of its impressive 425-metre-high cliff, South America's southernmost tip has, for many centuries, seen merchant ships from the world over passing by. Because of its legendary storms and rough seas, getting around the Cape has gone down in history as a challenge for all seafarers. Prepare yourself for a memorable experience, whatever the weather conditions!
