- 18 Manaus, Amazonia (Brazil)  
Disembarkation 07/12/2018 at 06h00

### YOUR CRUISE

PONANT is inviting you to enjoy an unforgettable experience along the Amazon River, on a 13-day expedition cruise. Aboard *Le Champlain*, immerse yourself in the unique atmosphere of this mythical and impressive river in the heart of Brazil, following a brand-new itinerary.

You will board your ship in the city of Cayenne, in Guiana. After first calling at the Salvation Islands, you will leave the Atlantic Ocean for the Amazon River's earth-coloured waters.

You will then sail up the river from east to west, to discover the many treasures it conceals: dense and varied vegetation, tropical fruit, a host of animal species, hamlets, stilt houses, local boats... In spite of the developments brought by modern civilisation, this ecosystem – the only one of its kind in the world – remains the cradle of a protected tropical life, which you will be fortunate to witness.

*Le Champlain* will then stop in the beautiful city of Belém, where you will be captivated by the huge open-air market and the walls of Forte do Presépio.

At the confluence of the Tapajos and Amazon rivers, around Santarem, you might be lucky enough to spot some extraordinary pink river dolphins (also called botos).

You will disembark in the city of Manaus, a surprising city of almost 2 million people, at the confluence of the Amazon and the Rio Negro.

*Subject to weather and river conditions. The expedition highlights, encounters with the wildlife and itineraries described above illustrate possible experiences only and cannot be guaranteed.*
