YOUR CRUISE

In partnership with National Geographic Expeditions.

> [Discover the Antarctic with PONANT!](#)

PONANT invites you on an extraordinary 21-day adventure in the Antarctic. You will board *Le Lyrial* for an all-new polar expedition cruise with an extremely rich itinerary that will take you from Montevideo to Ushuaia.

First, you will chart a course for the Falkland Islands, whose wild beauty and lush moors are sure to captivate you, before heading to South Georgia, its impressive glaciers and its black-sand beaches where large colonies of king penguins have taken up residence.

Your ship will then make its way to the South Orkney Islands. These mountainous islands where impressive glaciers dominate the landscape are a major nesting site for chinstrap penguins and a favourite hunting spot of leopard seals.

On the final leg of your epic adventure, discover the Antarctic Peninsula, realm of the unexpected. There, weather and ice conditions permitting, you will most likely get the chance to see Gentoo, Adelie and chinstrap penguins, humpback whales, seals and seabirds, against a grandiose backdrop of icebergs, ice floe, and ages-old glaciers.

After crossing the mythical Drake Passage, you will disembark in Ushuaia, the southernmost city in the world.

We are privileged guests in these extreme lands where we are at the mercy of weather and ice conditions. Landings on certain sites and the observation of certain wildlife cannot be guaranteed. They vary from day to day, making each PONANT cruise a unique experience. The Captain and the Expedition Leader will make every effort to ensure that your experience is as rich as possible, while complying with the safety rules and instructions imposed by the IAATO.
