- 18 Ushuaia (Argentina)
Disembarkation 31/01/2020 at 07h00

YOUR CRUISE

In partnership with National Geographic Expeditions.

> [Discover the Antarctic with PONANT!](#)

Cross the mythical line of the Antarctic Circle during this 17-day polar expedition cruise to the far reaches of the Southern Hemisphere, brought to you by PONANT.

After boarding your ship in Ushuaia, you will set sail for the Falkland Islands, whose wild beauty is sure to captivate you.

You will then make your way to South Georgia. This subantarctic region formed by an underwater mountain chain is home to a diverse and wild fauna. King penguins, fur seals and elephant seals are its most emblematic representatives.

Before crossing the Antarctic Circle, the highlight of your cruise, you will be dazzled by your stops in the Antarctic Peninsula, realm of the unexpected.

Weather and ice conditions permitting, the White Continent, an extreme environment where nature reigns supreme, will reveal to you its most beautiful secrets through numerous discoveries. Here, it is likely you will have the chance to observe Gentoo, Adelle and chinstrap penguins, humpback whales, seals and seabirds.

Each day, whether on land, aboard your ship or during a Zodiac® outing, you will be surrounded by a grandiose decor ranging from icebergs to ice floe and ancient glaciers.

We are privileged guests in these extreme lands where we are at the mercy of weather and ice conditions. Landings on certain sites and the observation of certain wildlife cannot be guaranteed. They vary from day to day, making each PONANT cruise a unique experience. The Captain and the Expedition Leader will make every effort to ensure that your experience is as rich as possible, while complying with the safety rules and instructions imposed by the IAATO.
