### YOUR CRUISE

Experience an unforgettable journey on board Le Boréal to discover the Eastern Coast of the USA. Autumn is an especially great time to enjoy the wonderful color palette that is offered to you.

Canada owes its irresistible charm to its exceptional natural sanctuary and its immense virgin lands. Port town with a rich heritage and unique architecture, Lunenburg is the best surviving example of a planned British colonial settlement in North America.

You will discover one of the oldest cities in the United States, Boston and its Old North Church is a true symbol of American history. You will have the opportunity to observe the "Freedom Trail" as well as some major sites of the Independence War.

For the first time, Le Boréal will make a remarkable two-day stopover at the heart of the exceptional dream machine, New York, the city of extremes and superlatives.

### FOCUS ON... NEW YORK

The biggest city in the United States is fascinating on many accounts. With its five particularly spread out districts - Manhattan, Queens, Brooklyn, the Bronx and Staten Island -, it offers an incredible number of cultural interests. You'll just love taking in the constant buzz in Times Square, discovering beautiful classical masterpieces at the Metropolitan Museum of Art, taking a stroll in Central Park's 341 hectares, or climbing to the top of the Statue of Liberty. Not surprising then that the Big Apple is to be consumed without moderation!
